Postmortem decoding of SSTV/APRS

SSTV decoding went quite fine using the Android app Robot36.

Notizbl0g.

Exposing hospital pager privacy breaches

It has been a known open secret that for years many hospitals have been transmitting sensitive patient data over the air completely unencrypted via their pager network.

15 kilometre LoRa SSH link with RNode

I decided I'd try to see if I could create a useable SSH link over a distance of 15 kilometres, with just two RNodes, and no intermediaries.
